PRODUCT BROCHURE

ONE PLANET, ONE FUTURE: LET US UNITE TO SAVE THE EARTH.

ABOUT ARECA PALM LEAF

The leaf sheaths of the Areca Nut Tree are used to make Areca Leaf Plates. Areca leaves are gathered, pressure washed, cleaned, sun dried, and then moulded into suitable shaped plates using heat and pressure. Plates may be utilised as an excellent fertilizer and a good source of organic manure once they have been used.

ABOUT ARECA PLATES

Areca plates are plates made from the leaf sheaths of the Areca nut tree, also known as the palm leaf or betel leaf. They are a sustainable and eco-friendly alternative to traditional disposable plates also known as wooden plates. Here are some of the benefits of areca plates:

Eco-friendly: Areca plates are biodegradable and compostable, and can be disposed of in compost bins.

Durable: Areca plates are sturdy and can withstand a variety of temperatures. They can hold liquid items for up to four hours without leaking.

Variety of shapes and sizes: Areca plates come in a variety of shapes and sizes.

Suitable for hot and cold foods: Areca plates can be used for serving both hot and cold foods.

ECO-FRIENDLY

8" ROUND DEEP SHALLOW PLATE

Part code GJRS8

10" ROUND DEEP SHALLOW PLATE

Part code GJRDS10
